Case number:	Vj/123-2008
Type of case:	Deception of consumers
Undertaking(s) concerned:	Könyvmíves Könykiadó
Short description:	Könyvmíves Könykiadó failed to indicate in its publication “Magyar értelmező kéziszótár” (Hungarian Explanatory Concise Dictionary) that it contained a significant number of archaic expressions, based on previous dictionaries, and that it explained headwords several times with old-fashioned wording rather than in today’s meaning, thus the GVH conducted a competition supervision proceeding for deception of consumers.
Decision:	Könyvmíves Könykiadó was fined HUF 500 thousand (approx. EUR 1700) by the GVH (the Hungarian Competition Authority) for the deception of consumers.
Date:	9 March 2009
